

Map making professionals who go out into the community to help integrate these technologies are known as Geo Mentors. They establish relationships with schools, teachers, clubs and community leaders to educate and teach the importance of map integration into the lives of students.

In order to get in contact with a Geo Mentor in Seminole County please refer to the contacts on the back page. They can assist in helping learn new skill and work out opportunities to educate students on the importance of mapping technologies.

Use map making skills to change the classroom

Disasters-
