2026 Central Florida GIS Workshop

September 21 - 22, 2026
DoubleTree by Hilton
Orlando Theme Park
Resort

cfgisworkshop.org

The Central Florida GIS Workshop Inc. (CFGIS) welcomes you to the 19th Annual Central Florida GIS Workshop!

CFGIS is a volunteer effort arising from the work of dedicated GIS professionals. We are a registered non-profit corporation that provides a venue and opportunity for GIS education, networking, coordination and collaboration to the growing user community in Central Florida and beyond!

As part of our workshop, we have many vendors that help sponsor our event – please check them out! We also offer annual scholarships to students in the geospatial field. We hope you will attend the Student Presentations and encourage the next generation!

KEYNOTE SPEAKERS

Becky Tamashasky M.S.

Chief Executive Officer
Avolve

Becky Tamashasky is the Chief Executive Officer of Avolve, a leading provider of digital plan review and permitting solutions that help governments modernize how communities are designed, reviewed, and built.

With more than 25 years of experience in technology for local government, Becky has dedicated her career to advancing how agencies leverage digital tools, geospatial data, and emerging technologies to improve infrastructure delivery and community outcomes.

Nancy Pham M.S.

Data Analyst
Freelance Wildlife Conservation Specialist

Nancy Pham is a freelance Geographic Information Science (GIS) professional specializing in the development of geospatial solutions for wildlife conservation and population management. From seadragons to stingrays, her work integrates GIS, reproduction, and data management to support international collaborations among zoos, aquariums, and conservation organizations. She has developed interactive web maps, ArcGIS StoryMaps, dashboards, and centralized databases that transform complex biological data into accessible tools for research and conservation. With nearly 20 years of experience in zoological science and a recent passion for GIS, Nancy enjoys applying a spatial perspective to conservation challenges and connecting people with the information they need to make informed decisions.

In Partnership with the Florida Association of Cartographers (FACM)

Schedule for Day 1 & 2

Join us for an exciting two days in Orlando!
Hear & learn from your colleagues, vendors, & specialized tracts from ESRI & FACM. about the latest trends and work in GIS.

Don't forget drinks and conversation after the conference on Monday night from 5p.m. - 7p.m. Social location to be announced shortly.
