

## ArcGIS Experience Builder: Migrating from ArcGIS Web AppBuilder

ArcGIS Experience Builder is built on the latest web technologies. As more capabilities are added to Experience Builder, it's time to consider modernizing your ArcGIS Web AppBuilder apps. In this session, you will learn how to improve your app with the most modern technology Experience Builder offers while keeping a consistent user interface and workflow to minimize the impact on your existing audience. We will talk about Experience Builder templates, building complete experiences and mobile optimization.

### **Bios:**

Matt Adams is a Solution Engineer at Esri specializing in local government. He is located in Saint Augustine, Florida and connects with users across Florida and the Southeast. Prior to Esri, he worked in local government in various GIS roles with a strong focus on Drones, Automation, and Mobile Workflows. He holds a Master of Science in Geographic Information Systems Technology from the University of Arizona and a Bachelors in Meteorology with Minors in GIS and Emergency Management from Embry-Riddle Aeronautical University.

Julie is a Solution Engineer at Esri. She attended the University of Georgia for her BS degree in Geography and GIS certification. Her background includes working in GIS at the city level and she enjoys working with different data types and bringing departments together. In her free time, she is often active outside and going on adventures with her dog.
