

Alicia (Ali) Pressel

Alicia (Ali) Pressel is an educator of environmental sciences and place-based citizen science in the Saint Augustine area of Northeast Florida. Ali integrates geospatial technologies into field studies and Geoinquiry processes to provide students opportunities to explore careers in the sciences, geography, and humanities. Her goal is to ensure students connect their human involvement to the natural world, make a difference in their communities, and be inquisitive, lifelong learners. Pairing project-based learning with community partnerships, Ali provides authentic learning experiences to fuel student curiosity as youth become mapmakers, change makers and leaders of tomorrow.
